 Pull-down mirror with dimmer-controlled side lights
 Lamps: Fuse style. Part# 297LB
 Operating Voltage: 12 V systems
 Power Consumption: .17 amp.
 Weight: 1 lbs.

WIRING (Sold Separately)

C304780 Red wire with connector
 C304781 Black wire with connector

INSTALLATION

Mark the desired location of the mirror. Cut a 4"x 9-1/2" hole for the body of the mirror. Connect positive and ground wires.
 Hook the back edge of the vanity inside the opening. Drill two 1/8" holes through the body of the mirror and secure with trim washer screws.
